1  /*Position property*/
2
3  /* position : static | relative | absolute | fixed */
4
5  /* by default position => static */
6  div{
7      height:100px;
8      width:100px;
9      border:5px solid black;
10     display:inline-block;
11     vertical-align: top;
12     /* ★ FIX */
13     margin: 10px;
14 }
15 .box1{
16     position: relative;
17
18     /* position Relative to itself */
```

```
.box1{  
  position: relative;  
  
  /* position Relative to itself */  
  
  top: 50px;  
  left: 5px;  
}
```

Relative position

Relative position

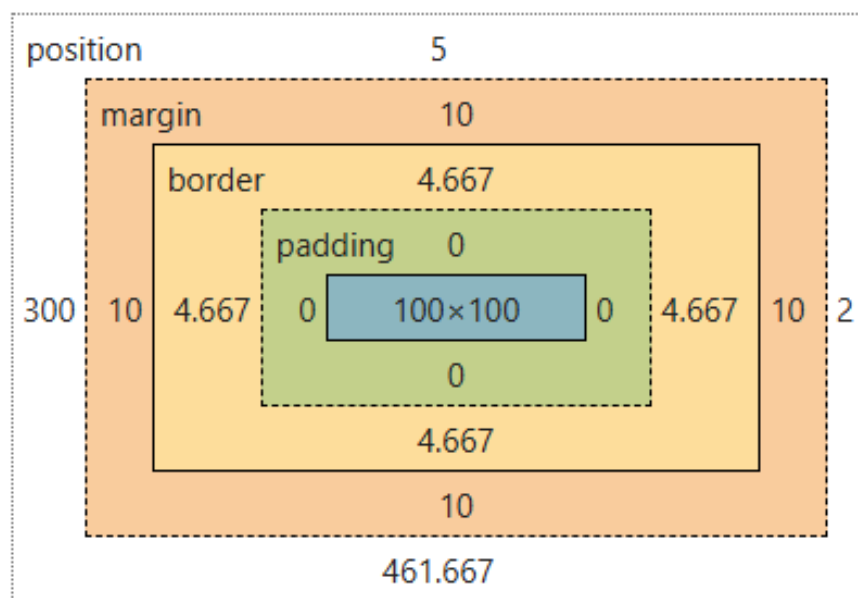

```
.box1{  
    position: absolute;  
  
    /* position Relative to its just  
    immediete parent element position  
    or body tag position or browser position */  
  
    top: 5px;  
    left: 300px;  
}
```

The image shows a web browser window with the title "Absolute position" and two boxes, "box1" and "box2", positioned absolutely. "box2" is on the left and "box1" is on the right. Below the browser window is a Chrome DevTools window showing the CSS styles for "box1". The styles include:

```
position: absolute;
top: 5px;
left: 300px;
height: 100px;
width: 100px;
border: 5px solid black;
display: inline-block;
vertical-align: top;
margin: 10px;
```

The DevTools window also shows a box model diagram for "box1" with the following dimensions:

- position: 5
- margin: 10
- border: 4.667
- padding: 0
- content: 100x100
- total width: 461.667
- total height: 300

```
.box1{  
    position: fixed;  
  
    /* position Relative to the initial  
    containing block Or body tag position  
    or browser position  
    */  
    top: 50px;  
    left: 300px;  
}
```

```

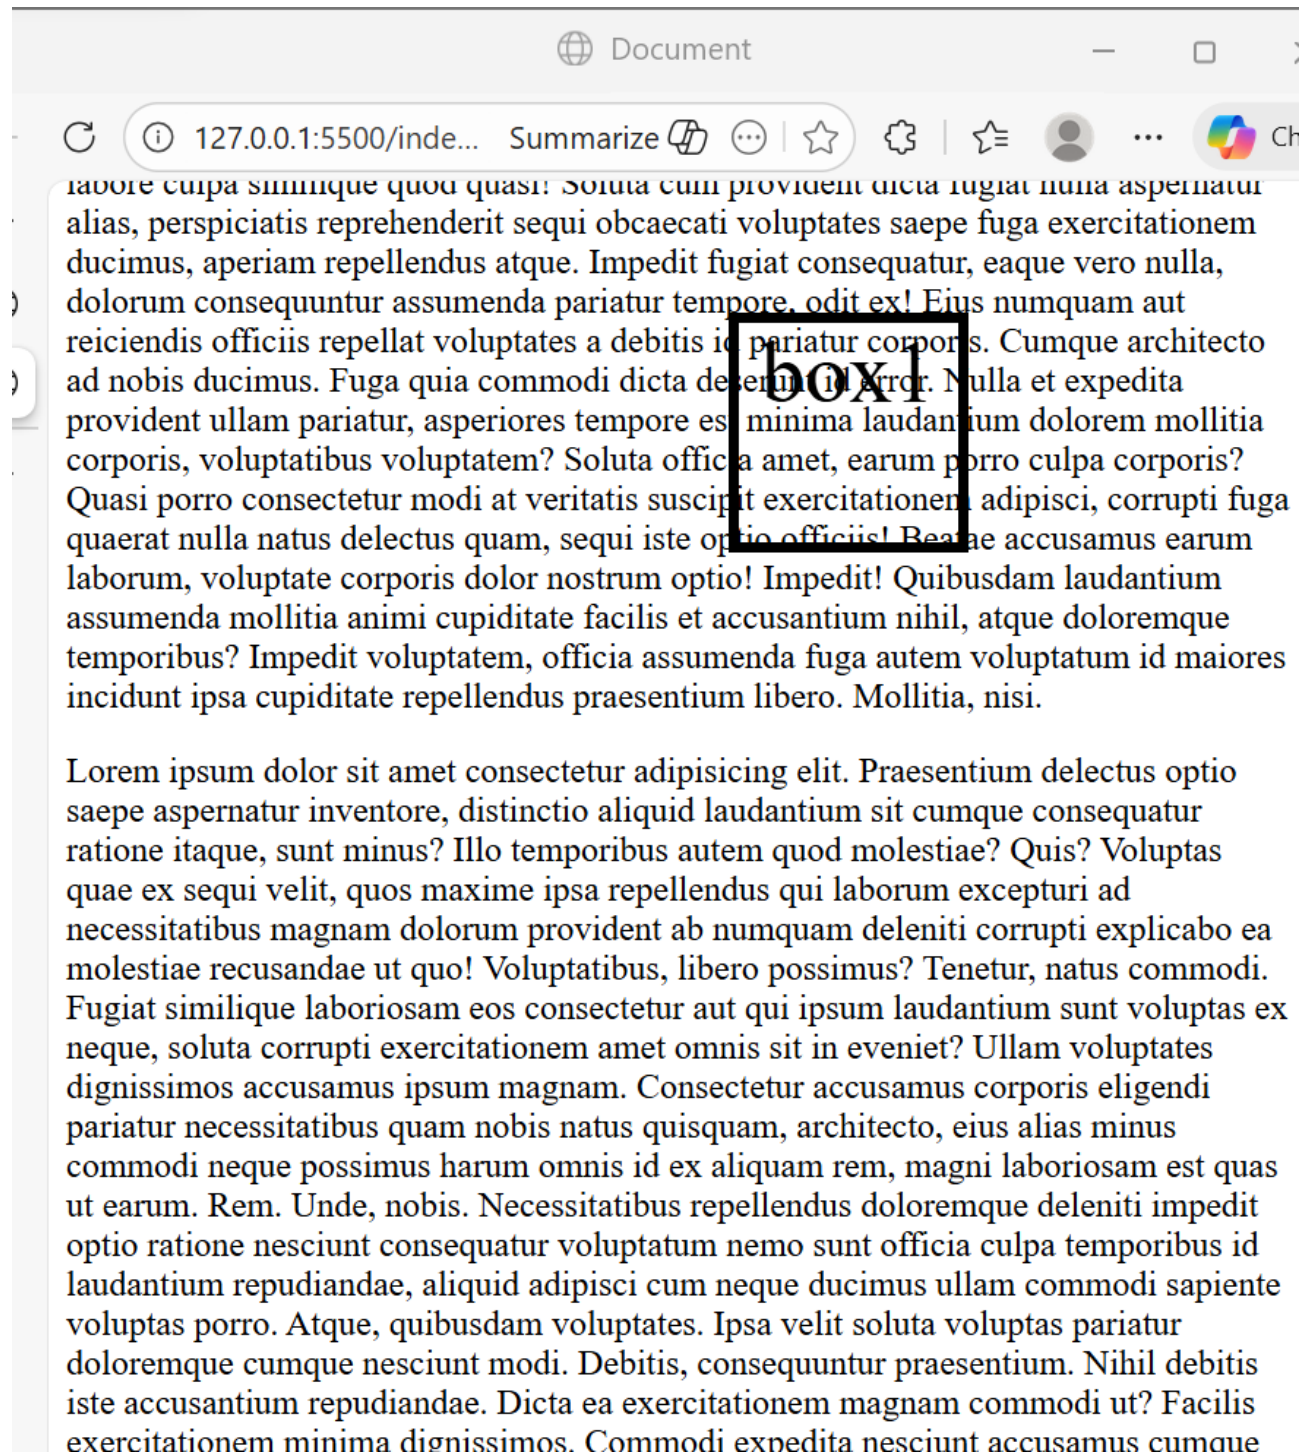

17 .box1{
18     position: fixed;
19
20     /* position Relative to the initial
21        containing block Or body tag position
22        or browser position
23     */
24     top: 50px;
25     left: 300px;
26
27 }
28

```
